### General Comments

#### Renewal Inspection:

Outside the children were observed engaging in water and sand play, playing with trucks, balls, and coloring. Inside the children were observed making slime and playing with lego.

Both the indoor and outdoor environments had a wide range of materials for the children to explore. Both environments had documentation displayed. The documentation reflects the children's on going learning and interests. Child print was observed on artwork and documentation.

Educators were observed having positive interactions with the children using gentle reminders as needed.

The following records were reviewed: Incident logs, fire drills, infant toddler daily sheets and daily attendance sheets.

All staff files were viewed, and a random review of child files was completed.

The Operator shared with the Inspector that all remaining staff will have their Professional Learning hours by the end of August as they have an all-staff Professional Learning session booked for the beginning of August.

Facility is recommended for licensing.
