39(2) A licensed facility shall have a separate locked storage space that is inaccessible to the children for each of the following: (a) toxic products, chemical products and cleaning supplies; Comments: Deficiency is now compliant	39(2)(a)	Oct 13, 2021	Oct 13, 2021

General Comments
<p>The climbing wall that was in the preschool outdoor area has been taken out of the space.</p> <p>It is imperative that educators continue to develop learning centres to enhance children's learning in each classroom. At this time licensing staff does not feel that there is enough variety in the classrooms to present a variety of learning experiences for the children. Please reference the Operator's Manual and the NB curriculum Framework to set up age appropriate learning centres for the children in each classroom.</p> <p>Also, the laundry room door was wide open at time of licensing staff's visit. There were chemicals stored in the cupboard in this room. Please ensure that rooms that contain these toxic products are always locked up. Operator locked the door at time of visit.</p> <p>Licensing staff to return in two weeks to verify completion.</p>
