General Comments

Educators were seen sitting and engaging in various activities such as crafts, reading stories, looking through magazines or just cuddling with the children.

The center has focused on "Celebrating Winter" as the theme for the month of January. Children are learning about artic animals and have made numerous crafts with this theme in mind. All of which have been posted on the walls.

Observed educators give time warnings time to transitions from one activity to another. Educators would give them a time and advise the children what the next activity was going to be.

The facility follows the interests of the children as shown in the learning stories and webbing that is posted throughout the rooms.

The children seem comfortable in the environment and are familiar with the daily routine of the facility.
