<p>General Comments</p> <p>Licensing staff arrived at the licensed facility to conduct the yearly license renewal inspection.</p> <p>As licensing staff was arriving at the facility, the 2-year-old classroom children and one of the 3/4-year-old classroom children were heading outdoors to play in the outdoor environment. While these groups were outside playing, the educators were engaged in play with the children. Licensing staff heard a lot of open-ended questions being asked, by the educators, to extend the play! The educators were following the lead of the children by giving them water to play with. The children and educators were painting the walkway with water, paint brushes and their hands.</p> <p>Licensing staff noted an easel and paint accessible to the children while engaging in play outdoors.</p> <p>The outdoor play environment had a number of natural wood materials such as a wooden car with 4 seats and steering wheels, wooden tiki huts (which also provide shade for the educators and children), a large hollowed out log for the children to climb on and to crawl through.</p> <p>When the children went inside to get ready for lunch, the children went to the washroom to wash their hands before eating their lunch.</p> <p>While observing in each of the indoor play environments, licensing staff noted distinct centres in each of the classroom.</p> <p>Staff files were organized and complete.</p>
