General Comments
<p>On the day of my visit, there were centres set up in the licensed area which is an improvement from your last inspection. Please provide atleast three more defined centres for the children to choose from. Invitations to play set up in all areas would give the children further choice and engage them in different kinds of play.</p> <p>The pre-planned program was evident but not consistent. As per regulation, educators are required to have a pre-planned program. Please ensure that educators are continuing to document planned child-lead activities. The quality assurance monitor will be verifying this on future visits.</p> <p>Please be mindful of supervision both in the indoor and outdoor play areas. They are large sectioned off spaces and children must be supervised. Staff should continue to spread themselves out in the different areas with the children.</p> <p>Educators were observed playing and interacting with the children in different settings. The conversations were positive in nature and the more challenging behaviors were redirected.</p>
