Comments:			

General Comments
<p>The center has added a play house structure to the afterschool outdoor play space that the children seem to be enjoying. Discussed with operator that a monthly inspection should be completed on this structure for the future. There is also an area for painting and picnic tables for the children to use for other activities. Although the educators keep the children occupied, there should be purposefully planned activities and documentation completed.</p> <p>There are plenty of materials in the gym for the children to use, however in the other room there is a lack of materials. Operator is having difficulty setting the room up properly as it is a multi-purpose room . Advised operator that since the children spend most of the time outside she can bring the inside out side and have areas for painting and quiet area outside for the children to utilize as they like.</p>
