### General Comments

The school age license has had many improvements since last year. The space is cleaner and much more organized. Materials and resources are being stored on a moveable shelf as this facility has to store things after use. Please remember to use the tables to set up learning centres for the children.

Pre- programming has been implemented and was verified by licensing staff at time of visit. The educators have been documenting the children's experiences through pictures which is a positive change from the last inspection.

The educators engaged with the children by having conversations with them and interacting with them. The children seem to move toward the materials that interested them the most. The children seem to have a good balance between indoor activities and outdoor activities.

All files were easily verified by licensing staff. Licensing staff can now recommend facility for licensing.
