General Comments
<p>The children were engaged in activities throughout the centre with the educators sitting with groups of children and walking around to check in with individual children and groups. Several children were crocheting and teaching other children. Children were playing cards and board games. Children were in the front entry playing lego. Children in the front room had a mall set up and were accepting play cash and credit to buy items. A chair was set in this room for hair to be done. As well, several children were playing barbie with each of the barbie houses. Children checked in with educators for questions or ideas.</p> <p>The educators were observed to be encouraging to children and reminding children of rules. The educators are trying a different routine for snacks and lunch responding to the needs of children by setting up snacks and lunch and providing a period of time to eat. A bell is rung at the beginning to signify food is ready and ten minutes before completion to allow all children to decide when they are hungry.</p> <p>The children's belongings are located in the porch area with an All about me poster posted above each child's name and their peg. A mat is located below on the floor with the children's names for boots.</p> <p>A parent board is located in the front entryway with required items posted and one side has documentation of learning stories with events and activities the children have participated in with information and photos.</p> <p>The staff-to-child ratio was met today. The mini lights around some of the rooms created a warm and comfortable environment. Child files were reviewed and noted to be organized and complete. Medication records were kept in individual child files, complete and signed by educators and parents.</p> <p>Children were asked to meet in the dining room at one point to have a discussion and vote, showing the value the educators have for the children's viewpoints.</p>
