Comments: Lunch is being served to the children cold as there is no microwave on the infants side to heat up lunches.			

### General Comments

When licencing staff arrived the children were getting ready for snack. Proper hand washing procedures were followed.

New staff have been hired since last visit. Files were reviewed and all contained the proper documents.

Clutter is starting gather on shelves and table. I recommend educators go through their room and remove unnecessary items from the rooms.

General Comments

There is a shelf in Kindergarten crossing that has doors hanging as there are broken hinges. This shelf needs to be repaired or moved out of the classroom.

I recommend the three year old room, silly street, be provided with more open-ended materials and equipment to reflect arts, dramatic play, music and movement, gross and fine motor skills and science and technology.

Also suggest a microwave be provided for the infant's side of the center so lunches and snacks can be properly heated up for the children to eat.
