| <p><b>General Comments</b></p> <p>Licensing staff arrived at the licensed facility to conduct the license renewal inspection. When licensing staff arrived at the facility, children were still arriving at the facility for the day.</p> <p>The two-year-old children were engaging in a loose parts activity that consisted of tree cookies, tractors, plastic animals and different sized, coloured wooden blocks and plastic bugs. The children were picking up the blocks and telling licensing staff the colour of the blocks. Once the children finished playing with the loose parts activity, they changed into their outdoor shoes and went outside to play.</p> <p>While the two-year-old children were outdoors playing the three-year-old children joined them outside. The children sang, danced, and chased bubbles around the outdoor play environment.</p> |

General Comments

The infants were outside playing as well in their designated outdoor play environment.

Licensing staff only observed some children with hats on while playing outside. Please encourage the children to wear hats and if the children did not bring a hat, remind parents to bring a hat for their children.

Licensing staff took note while outside, that there is adequate protective surfacing for the small climbing structure, balance beam and small wooden climbing wall; however, the mulch needs raking for it to be safe for the children.

Please ensure all classrooms have mark making materials for the children to access at all times.
