General Comments

Monitoring visit performed. No compliances to address.
Upon arrival children were involved in a variety of age appropriate activities. Some children were playing on their own or in small groups. Many were making Halloween decorations for their classroom, others were playing house, drawing, coloring, building with lego, or playing pokemon - no trading permitted etc. All children were involved and playing cooperatively with their friends.
This facility is still waiting for PH and fire inspection reports to be completed. Once this is received the department will issue a new license.
Administrative records were reviewed and this is being tracked.
Educators were observed engaged with the children. Lots of interaction observed.
