General Comments Licensing Staff arrived at the facility to conduct the Renewal Inspection. Upon arrival, the children had not yet arrived from school. During this time, staff and child profiles were reviewed. Files were organized, easily accessible, and complete with all required documentation. The classroom had recently been painted, and all play materials were observed to be in good condition. The Educator explained that children arrive from different schools at various times throughout the afternoon. The Educator waited at the bus stop and accompanied the first group of children inside. Each child had an individual, labelled hook for their backpack and jacket. Handwashing was observed before the children sat down for afternoon snack. Shortly afterward, the second group of children arrived. The other Educator greeted them at the bus stop and accompanied them inside for afternoon snack. Following snack, the children packed their backpacks and transitioned to the outdoor play area. A group of children gathered to play soccer, while others explored the climbing dome, engaged in imaginative play by making pizzas in the play kitchen, and searched for spiders and other bugs. The Educators were actively engaged with the children and participated in their activities. Positive child guidance was observed throughout the inspection. Licensing Staff recommends renewal.
