Comments: There is a build up of dust on baseboard heaters, bookcases, and windowsills. The indoor play area must be maintained and clean.			

<b>General Comments</b>  Quality Assurance Monitor inspected indoor play area, storage spaces, child guidance, personal belongings, child files and daily routine. Operator pinned QAM's information on the visible postings board during inspection. QAM and Operator discussed dust in the basement. Operator states that the room is cleaned each week, but that the dehumidifier seems to be making the dust issue worse. Operator states they will create a plan to clean more frequently. QAM observed children in a variety of freeplay, including wall building, dramatic play, fort building, and art.
