<p>General Comments</p> <p>During my unplanned visit in the morning, I observed compliance with the required ratios. No after-school children were present. The following elements are observed during my visit:</p> <ul style="list-style-type: none"> - Designation: Most of the required 10 hours of professional development have been completed by the educators concerned. All 10 hours must be completed before the license expiration date in August 2026. - Verification of a new employee's file and updating of personnel information. - Minor incidents are documented and signed by parents. One incident report was brought to my attention during the visit, and the form was signed by the parent. - The indoor play area is clean, safe, and benefits from natural light. - The indoor play materials are varied, available in sufficient quantity for the number of children present, and stored on low, open shelves that are easily accessible. <p>The Early Learning Consultant team was present at the same time for the CAT-V. Observation of the arrival of two preschoolers, with a handwashing routine followed by all groups, and snacks provided by parents. During my visit, the 3 year old group went to the gym, and the 4 year old group went for a walk outdoors.</p>
