Comments: The CPR training was completed on May 13. A copy of the certificate should be added to the files once you receive them.			
31(6) The outdoor play area of a full-time or part-time early learning and childcare centre at which services are provided to infants or preschool children shall be enclosed with a fence at least 1.22 m in height with a gate that is secured at all times when the children are present.	31(6)	Jun 26, 2026	
Comments: During my visit, the 4-year-olds were playing in the after-school playground, which is not fenced on all sides. The preschool play area must be fully enclosed by a secure fence at least 1.22 m high. Following a discussion, the after-school playground will be fully enclosed. In the meantime, preschool-aged children will need to play in the 3–4-year-old playground.			
33(2) L'équipement fixe de l'aire de jeu extérieure est entouré d'une surface protectrice et est installé selon les instructions du fabricant.	33(2)	Jun 26, 2026	
Comments: There are small rocks under the playground equipment; however, additional rocks should be added or raked under the slides, climbing structures, etc., to ensure there is sufficient protective surfacing and that the play structures are safer.			

<p>General Comments</p> <p>A renewal inspection was conducted on June 16, 2026. During the visit, the required staff-to-child ratio was maintained in compliance with regulations. I observed outdoor play, as well as planned activities such as crafts and reading. The children also had scheduled times for snacks, lunch, outdoor play, and rest. Staff and facility files were reviewed and verified. It was noted that professional development hours must be completed by August. Once the deficiencies have been corrected, a confirmation may be provided by email, or an on-site follow-up may be conducted.</p>
