Address 258 148 Route Killarney Road NB E3G 9E2		
Name of Early Learning and Childcare Licensing Staff Sabrina Diotte		Position Title Inspector

Order for Compliance	Regulation	Date to be corrected	Date corrected
39(2) A licensed facility shall have a separate locked storage space that is inaccessible to the children for each of the following: (a) toxic products, chemical products and cleaning supplies;	39(2)(a)	Jan 25, 2023	Jan 25, 2023
Comments: There were two bottles of cleaner in one of the cabinets that was lock with a child lock. However, toxic products must be lock by key. They were moved immediately to the lock storage closet.			

<p>General Comments</p> <p>When I arrived, the children were getting ready for snack.</p> <p>The 4-year-old classroom did a science learning activity today where they put beads in water glasses and the beads would grow bigger. The Educator talked to the children about the process of the experiment, they talked about the temperature of the water, they talked about measurements and how big the beds would get. The children were interested and engaged in the conversation.</p> <p>The 2-year-old room was working on fine motor skills today where the children would pick up pompoms with a spoon and put them into cups.</p> <p>The centre is clean and organized. All rooms have materials of different category such has blocks, arts and craft supplies, science, books, items for pretend play and dress up.</p> <p>The outdoor playground was inspected and meets all regulation however, some aspects were not observed due to the snow (protective surfacing, more than two types of surfaces).</p> <p>The children's art projects are posted on the walls. There is evidence of purposely planned programming and use of the curriculum.</p> <p>Positive child guidance was observed such has gentle reminders to wash their hands or put their toys away, educators were also observed encouraging the children during a learning activity and consoling them when needed.</p> <p>I recommend for renewal.</p>
