Name of Early Learning and Childcare Licensing Staff Jenelle Hanscom		Position Title Quality Assurance Monitor	
Order for Compliance	Regulation	Date to be corrected	Date corrected

General Comments

Purpose of visit on this date was a regular monitoring inspection. Rooms were observed to be clean and well maintained. Artwork and activities were visible throughout the centre.

Infants were observed engaging in an art activity which was led by the educators, other infant room educator advised that they had completed a footprint art activity with younger infants. Educators should focus on creating child led art activities that allows infants to explore with different art materials in a way that promotes independence by providing open ended materials. Materials should be developmentally appropriate keeping in mind the developmental milestones of infants by encouraging them to use skills such as grasping etc.

Older children were observed in the outdoor playground on this date. The weather was a mix of snow and rain making the infant outdoor play area very slippery, the infants did not go outside during the monitoring visit. Sand should be added to the outdoor play areas so children and educators can spend time outside when conditions are slippery.

Ratio was maintained at all times and positive behaviour guidance was observed throughout the inspection.
