Comments: White 8 Section Shelf - white basket accumulating dust and debris. To be cleaned. Green Play Kitchen - accumulating dust and debris. To be cleaned. Gray/Green Art Activity table - accumulating dust and debris. To be cleaned.			

General Comments

A Monitoring Inspection was completed this morning. Children were observed during both indoor and outdoor play. Upon arrival, children were taking part in free play. Several children were playing at the Train Centre. Children were very interested in trains. Toy trains, books about trains, and train documentation were observed in and around the train centre. Children were also interested in Flowers and Insects and there were lots of accessories and documentation for both topics. Children were also observed playing in the Dramatic Play area, making food in the play kitchen, while others were observed looking at books, in the Reading Area. Several forms of documentation were observed throughout the facility - some recent and some that have been displayed for a few months. A discussion was had with the administrator about how more up to date documentation is preferred, and that the older documentation could be removed. While outside, children were observed blowing bubbles, and playing with the items in the homemade sensory bin. Children were also observed building with the outdoor blocks.
