General Comments

Renewal Inspection completed today.

Educators and children were observed throughout the morning, during play, transitions and meal times.

The indoor play environment is purposefully planned with a variety of materials. Materials are easily accessible for children and reflective of current interests. Children were observed to move freely throughout the play environment during play. Educators engaged with children in play, conversation and tending to their needs.

A variety of documentation is posted in the environment. Individual and group learning stories, photos, children's process art, children's words, ideas, and curiosities are posted. Documentation posted at the children's level provides opportunities for them to revisit past learning, and extend current interests.

The outdoor environment has a variety of materials for children that promotes active, dramatic, and creative play.

Handwashing observed throughout the morning.

As previously discussed, a parent committee are a requirement of being a designated early learning centre. QA Monitor will follow up at renewal regarding this requirement. Information on parent committees provided to the operator.
