Order for Compliance	Regulation	Date to be corrected	Date corrected
25 An operator of a licensed facility shall post in a clearly visible and prominent place on the premises: (a) the daily routine. Comments:	25(a)	Feb 07, 2023	
39(2) A licensed facility shall have a separate locked storage space that is inaccessible to the children for each of the following: (a) toxic products, chemical products and cleaning supplies; Comments: Deficiency is now compliant	39(2)(a)	Jan 31, 2023	Jan 31, 2023

<p>General Comments</p> <p>When I arrived for today's visit, the children were finishing up snack and playing freely around the room. While the operator was giving me a tour of the children's play space, the children spotted suitcases in the storage room. Operator followed the children's new interest and let them take out the suitcases and explore them. The suitcases went from being little beds, to being real suitcases that the children were packing to go vacation, and then they turned into cars!</p> <p>The operator was observed interacting with children and being attentive to their needs. Gentle reminders and redirection techniques was observed during today's renewal inspection.</p> <p>Children went outside to slide after quiet/nap time.</p> <p>Children can pick their blankets they wish to use during nap/quiet time every day. Operator ensured that all blankets are washed nightly so they are ready to go for the next day.</p> <p>Operator permitted children to watch children's music videos on television during lunch and quiet time. A reminder that the use of television viewing must be limited and not used daily.</p> <p>A reminder that it is not recommended for children to share food from their lunchboxes during mealtimes for safety reasons such as possible unknown allergies. It is recommended that operator sit at the table with children while they are eating to help model healthy eating practices.</p>

General Comments

For safety reasons, please ensure that all outlets have covers/plugs in them when not in use.

Unable to fully inspect outside play space due to the ground being snow covered. Quality Assurance Monitor will follow up when snow melts/ground thaws to inspect.
