

## Early Learning and Childcare Facility Inspection Report

Type of Inspection:  
Monitoring Inspection

Pursuant to section 21 of the *Early Childhood Services Act*, operators of licensed early learning and childcare facilities must post their most recent inspection report in a clearly visible and prominent place in the facility.

| General Comments  |
| <p>Purpose of this visit was to perform a regular monitoring inspection. Three children were in attendance on this date, and all were engaged with several activities throughout the visit. Materials in the home were sufficient and varied for the children present and provided a range of learning experiences. Children enjoyed using counters, recipe cards, magna tiles and baby dolls.</p> <p>The children requested to go outside to pick strawberries on the back of the property. Children were each given a container and enjoyed picking berries in the field which the operator had mowed a pathway through. The children asked to walk to the small pond and were excited to hear frogs once they arrived. Supervision was maintained at all times. The operator was observed using positive child guidance and helped children to problem solve, share and include one another.</p> <p>Parent board can be updated to include the contact information to the new Quality Assurance Monitor.</p> |
