| <p>General Comments</p> <p>The Quality Assurance Monitor is on-site for a monitoring inspection. During the inspection, the Quality Assurance Monitor was able to do a verification of 5 staff records. The Quality Assurance can confirm that all staff members hold valid first aid certifications and valid cardiopulmonary resuscitation certificates.</p> <p>The Quality Assurance Monitor was on-site during nap time. The Quality Assurance observed an educator conducting physical checks every 15 minutes to the infants younger than 15 months of age. The Quality Assurance Monitor observed that the radio was on in the infant sleeping area during nap time. The music was playing pop music. An educator notified the QAM that their CD player recently broke and that they must put on the radio while they wait for a new CD player. The Quality Assurance Monitor recommends that soothing relaxation music be provided during nap time.</p> <p>All toxic products, chemical products, and cleaning supplies were locked and kept out of reach to prevent accidental ingestion during the inspection. The ratio was respected at all times during the inspection.</p> |
