General Comments
<p>Monitoring inspection performed. The operator has a busy group of children. Covid guidelines are followed, cleaning checklists are completed, and I was screened prior to entering. The operator will commence tracking the daily log sheet for contact tracing purposes.</p> <p>I reviewed administrative records - attendance records are completed daily, and the last fire drill was practiced in March. Please continue using the fire drill report form to record, the time, number of children etc.</p> <p>Appropriate child guidance practices were observed as per usual. The operator engages and extends children's learning easily and children are familiar with the days routine. Upon arrival children were drawing and the operator was documenting what the children drew on their art paper. Children washed hands before eating their snack. Children are bringing their own snacks from home.</p> <p>The operator has removed the swing set from the outdoor play space so protective surfacing is no longer a requirement.</p> <p>Children are napping upstairs either in a crib or on mats. The operator uses a monitor and also checks on the children every 15 minutes and documents.</p> <p>After snack children cleaned up before moving onto other morning activities. Children were observed playing cooperatively and observed playing lego and putting a puzzle together also.</p>
