General Comments
<p>Monitoring visit performed. No compliances to address.</p> <p>Covid guidelines are being followed and the operator is tracking daily log sheets, attendance, fire drills etc. Only two children attending today. One child was waking up from nap upon arrival and both children washed hands before eating their morning snack prepared by the Operator - banana, cheerios, yogurt, and water. This operator has a wonderful rapport with the children. She encourages them to talk and to say words. They are young and learning language - lots of practice with sounds and repetition of words etc. The Operator talks to the children constantly, reading and singing to the, assisting with feeding etc. Children respond with lots of eye contact, smiling, laughing, and making sounds. Lots of interaction observed.</p> <p>The programming room is inviting and lots of age appropriate materials, toys and equipment onsite. Children love car, listening to stories, and are learning about animals and the sounds they make.</p> <p>The Operator completes Potential Illness forms when required.</p>
