General Comments

The Quality Assurance Monitor is on site this morning to conduct a monitoring inspection.

The following elements were verified:

- Staff member records
- Qualifications and training
- Checks
- Administrative records maintained on-site
- Medication records
- Medications
- Health

The Quality Assurance Monitor observed that one staff file was missing the 90-hour course confirmation. The operator must ensure that all required elements are included in staff files. The operator promptly printed the document and added it to the staff member's file.

During the monitoring inspection, it was also observed that another staff member's file was missing the signed declaration for the Acts and Regulations. The operator must ensure that this file is completed prior to their start date. The signed declaration will be provided to the Quality Assurance Monitor once the educator returns for their next scheduled shift.

The Quality Assurance Monitor had a discussion with the operator regarding designation requirements. The operator confirmed that the new Quality Improvement Plan has been initiated and that all eligible educators are actively completing their required 10 hours of professional learning per renewal year.

During the monitoring inspection, the following were observed: transitions, outdoor play, free play, gym activities, sensory bins set out for the children, one classroom creating dinosaur prints on hearts, handwashing, and preparation for lunch.

The Ratio is respected during the monitoring inspection.
