General Comments

Inspector is onsite to complete the renewal inspection. Inspector observes the children playing outdoors, eating lunch, rest period and afternoon outdoor play. Educators interact positively with the children during the length of the inspection. Children are very excited that the warm weather has arrived.

Inspector has a discussion with the administrator for the professional learning hours and how the educators can complete webinars offered compared to attending learning sessions in person. Inspector recommends for the administrator to contact the ELC consultant for a list of available webinars the educators can access.

The ratio is respected during the renewal inspection.
