Order for Compliance	Regulation	Date to be corrected	Date corrected

General Comments

A Monitoring Inspection occurred July 10, 2025.

The children were observed engaging in a variety of activities indoors, outdoors, and during transitions between environments.

Grade 3 - 5 Group: The children was observed participating in a lemonade stand activity while licensing staff were present. Supported by educators, the children interacted with parents and customers. Educators shared that this activity takes place several times a week as a fundraising initiative for an end-of-summer trip. Children had access to their personal water bottles and were provided with large beach umbrellas for shade. Upon returning indoors, the children were observed building with Lego, playing board games, and participating in dramatic play.

Grade K - 2 Group: The children were on an outing to Bayshore Beach. Upon their return, licensing staff observed that educators had brought along buckets, rakes, and water soakers for the children to use.

The room was well-organized and inviting, with a varied supply of age-appropriate materials, books, and toys. A clearly visible and prominent area was designated for posting the facility license, current monitoring reports, and any orders for compliance. Additional documents observed included incident logs, two new staff files, daily attendance records, and records of evacuation and monthly fire drills.
