Order for Compliance	Regulation	Date to be corrected	Date corrected

General Comments

A Monitoring Inspection was conducted this afternoon. Children were observed inside the gym and outside, playing in their fenced in play area. Operator recently lost access to the cafeteria space. The gym is now being used for all children and is currently being split down the middle. Max group size is 30 school aged children on each side. Both sides of the gym contained several materials and supplies, including arts and crafts, building, and books. Staff files were reviewed. This space is presently considered an emergency relocation. An application has been sent to licensing to add the full gym, as licensed space.
