General Comments
<p>Licensing staff arrived at the licensed facility to conduct a monitoring visit on July 12, 2022.</p> <p>The children were engaging in free play activities when licensing staff arrived at the facility. The children were observed engaging in dramatic play- pretending to be sleeping. After a few minutes, the children then were pretending that they were flying on a plane to travel to their vacation destination. The operator joined them on their flight.</p> <p>The children were also observed playing with other materials, such as: craft supplies (paper and stencils) and puzzles.</p> <p>At approximately 11:00am, the children went outside to play in the very lovely outdoor play environment. Licensing staff observed very distinct centres outside. There was a gross motor centre where the children can climb, slide and swing, The protective surfacing surrounding the stationary equipment more than meets what is recommended by the manufacturer's manual. Licensing staff also observed a wooden loose parts centre as well as a wooden mud kitchen area with pots and pans, wooden spoons, etc.</p>
