General Comments
<p>On the day of my visit the operator was getting ready for outdoor play time. The plan for the day was to plant the garden, with the help of neighbouring home center that came for a visit, and a trip to the park. The children put soil in the pots and planted cucumber, peas and purple beans. The children were eager to show me the strawberry plants they had planted the week before. After planting the children enjoyed some free time playing in the sandbox before going for walk to the park for a picnic. At the park the children enjoyed the play structures and slides. The educator creates dialog with the children by asking many opened ended questions to help develop their vocabulary and speaking skills.</p>
