General Comments
A renewal inspection was conducted today. The children were observed during outside play, inside play, lunch and nap/quiet time. Handwashing and diaper changing procedures were also observed and followed as per guidelines. The educators were observed having positive interactions with the children in their care. Discussed indoor play materials with the educators and they indicated they have items ordered and new materials should be arriving soon. Licensing will follow up on this at the follow up inspection prior to license expiration.
