Comments: White drawers by sink were broken. To be repaired. Educators stated that someone had already been contacted regarding the drawers, and that they would be repaired soon. Picture to be sent to QAM once completed.			

General Comments
A Monitoring Inspection was completed this morning. The infant group were observed during snack, indoor play, and outside play. The 6 infants were observed sitting at a table, with their educators, eating their snacks. After snack, educators washed the infant's hands and faces, and then the infants were observed looking at books, with their educators. Educators stated that the children are presently interested in animals, babies, and dress up. Several forms of documentation were observed throughout the facility - learning stories, photos with written descriptions, and children's artwork. Educators were in the process of getting individualized photo/ Interests word webs completed, for each of the infants. Educators were observed helping the infants get ready for outside play. While outside, infants were observed climbing, sliding, and walking around the play area. Educators were engaged - helping the infants when needed, and talking, and laughing with the infants during play.
