General Comments
<p>The upstairs main space is the only room currently being used at this time.</p> <p>Educator and children were all sitting around the table when I arrived discussing what sort of product they could make for their Entrepreneur Week. Once everyone was able to share their ideas and participate in the beginning planning process, the children were able to play freely around the room until snack time. "Bottle Flip" appears to be a bit hit with some of the children here!</p> <p>Observed positive child guidance practices such as offering choices and assisting children in decision-making and using gentle reminders when needed.</p> <p>Children finished off the day gathering their things and heading outside to play! Educator ensured that she brought the large gym bag outside with them so the children would have toys to play with while they are outside.</p> <p>Please ensure that if the kitchen doors are unable to be closed while the children are present, should there be any toxic products stored in that area that they are locked and that children are always supervised while in the hallway.</p>
