<p>General Comments</p> <p>Renewal Inspection:</p> <p>During the renewal inspection conducted today the children were observed in both inside and outside play. Children were actively engaged in a variety of activities outside. Exploring the field area, climbing on the play structure and playing games.</p> <p>Discussed with administrator locks required to ensure children do not have access to toxic products and discussed solutions. Also discussed with administrator cleaning guidelines set out in the COVID-19 Recovery Phase Document that was updated on August 17, 2020.</p> <p>A wide variety of materials are available for the children to interact and engage with. The educator discussed how when one educator takes the children outside to play the other educator will remain inside to clean and disinfect the toys. This is a shared responsibility in which they take turns.</p>
