**General Comments**

A Monitoring Inspection was completed this afternoon. Children were getting into the facility, from school, at my arrival. Children were observed hanging up their belongings and washing their hands. There were several invitations set up and children were able to choose what they wanted to do, based on their own interests. A group of boys were observed playing with Lego Bionicles, and a group of children were sitting at the Arts and Crafts Table, creating tie dye pictures. A couple of children were playing with the Small World pieces, and a couple of others were creating music on the keyboard.

Several forms of documentation were observed throughout the room.

Educators and children were working on a Valentine's Day Project. A camera had been sent home with the children, and each child took a picture of something they loved. Children were looking at their pictures today and discussing next steps.

The love of nature and environment was observed throughout the room –bunny, fish, plants, old nests (hornet and bird), rocks, shells, etc. Several examples of art, made with materials from nature, were also observed.
