General Comments
<p>A renewal inspection was conducted today. The educators and children were preparing to go to the park and then swimming at the Hampton Pool. The reduced child-to-staff ratio for swimming was met with more educators than required going to the pool with the children.</p> <p>A wide variety of open-ended materials are available for the children to interact and engage with and their learning environment shows the activities that the children have been participating in so far this summer. Pictures and captions are posted on the walls and a book of their learning adventures is available for the children to re-visit their experiences at any time.</p> <p>The educators were observed having meaningful and responsive conversations and interactions with the children in their care.</p>
