Order for Compliance	Regulation	Date to be corrected	Date corrected

General Comments
<p>Preschool program at this location is currently not operating.</p> <p>Educator walks to the school to pick up the children at the end of the day. Once all children were accounted for, everyone walked back over to the facility to use the washroom and wash their hands. Once everyone was washed up, they all went outside to play at the school playground where they had the choice to have snack or to go and play.</p> <p>While at the school playground, the children were observed playing on the play structures and at the basketball court. Educator ensured she was constantly moving around the playground to ensure proper supervision of the children.</p> <p>This licence also has its own fenced in outside play space to use should they wish. Inside this play space, there is an abundance of play material for the children to play with, such as a play structure, hopscotch, digging materials, tires to balance on, a mud kitchen and a sand box. There is also a large structure that provides shade to much of the outside play space.</p> <p>Educator and child files that were observed today were in compliance with licensing regulations.</p> <p>Everything was in compliance during today's visit and I recommend for licencing.</p>
