General Comments
<p>Educator walks across the street to the school to pick the children up at the end of the school day.</p> <p>When children arrived at the center, they immediately went outside to enjoy the sunshine. Some children were observed eating snack, educator was observed going over the children and asking if they had washed their hands before eating. After this, educator made an announcement to the group that if anyone wanted to have snack, to line up to go inside to wash their hands.</p> <p>Children were observed playing on the play structure, kicking a soccer ball, and building a house out of large Lego blocks for toy animals.</p> <p>Observed positive child guidance practices such as offering choices and assisting children in decision-making and using gentle reminders when needed. Observed educator also redirecting children when required. For example, observed a child kicking a soccer ball in the air, the ball accidentally bumped another child on its way back. Educator saw this and asked the child if they wanted to play soccer instead and was observed explaining to the child why kicking the ball up in the air wasn't safe.</p> <p>Observed some broken yellow colored plastic on the ground in the outside play space by the facility's back door. Quality Assurance Monitor informed educator of the broken pieces, and educator promptly went and disposed of them.</p>
