Order for Compliance	Regulation	Date to be corrected	Date corrected

General Comments
<p>Upon arrival, one child was awake waiting for pick up from Mom and 2 other children continued napping while the Operator's daughter watched a movie. A physical nap check is completed and documented daily. Another child woke during my visit and was given a choice of activities.</p> <p>As discussed with the Operator, her own child could have a friend visit during operating hours as long as the other child is counted in the maximum child spaces permitted during the day in the summer. That is a maximum of 6 children at anyone time during the day and one child must be school age in that mix.</p> <p>Administrative records, infant toddler records are being tracked. Fire drills are being completed monthly and evacuation time is good. Non reportable Incidents are also documented. None recently.</p> <p>Today pancakes and strawberries for snack this AM. Operator documents any changes to the menu. Parents provide lunches.</p> <p>The operator has been working on the alphabet with this group of children this summer. They have completed up to the letter F. She documents the things that children really like, their interests are incorporated into the documentation from the letters of the alphabet. For example - Always exploring for the letter A, Bumble bees for the letter B etc</p> <p>The operator lives near O'dell and she often walks the children over there to explore the woods.</p> <p>Operator posts illness notices so parents are made aware.</p>
