Order for Compliance	Regulation	Date to be corrected	Date corrected

General Comments
<p>Monitoring Inspection performed.</p> <p>Upon arrival all children were enjoying their morning snack of yogurt and blueberries and clementines. The operator offers snack to the children and parents provide the noon meal. She was making pleasant conversation with the children and giving children options and provided more food if they asked for it. They really like the yogurt.</p> <p>It has a been a busy morning with this group of young children. Attendance is tracked daily, and fire drills are performed monthly, and licensing staff observed a fire drill must be completed by the end of January. The children were laughing and making chickadees sounds while eating.</p> <p>After snack, the Operator cleans each child's face and hands with their own facecloth, then allows them to move about freely and go and pick out a book to read. One child is beginning to walk and climb and is unsteady but enjoying their ability to take a few baby steps. The Operator encourages the child and provides support. The Operator engages with all 4 children. They are a busy group. Children are content and happily play and laugh while the operator reads a story. Children were interested in the map of Canada and when children pointed to different places, the Operator would say the names out loud and the children would try to repeat. She also tried to associate places where children had travelled to on vacation. Lots of artwork and documentation of children's learning is posted.</p> <p>Please update my new phone number on your parent board - 506-429-2028. During my visit children were observed getting ready for outdoor play. It takes them a long time to get dressed but for the children's ages they do very well to put their hat on, then with the help of the Operator they put on snow pants etc.</p>
