General Comments
<p>Visit conducted at the facility for a monitoring inspection. Ratio was respected during the visit.</p> <p>The Quality Assurance monitor was on-site to verify the purposeful planning and documentation of the programming. The facility implements an inclusive daily program which contains a variety of purposely planned activities, opportunities and experiences. QAM was able to see documentation of children's learning all over the facility.</p> <p>The facility has a separate locked storage space that is inaccessible to the children for toxic products, chemical products and cleaning supplies.</p> <p>QAM also verified staff member's files. Everything was up to date, but QAM recommends that documents that are framed in the facility should also be placed in the file.</p>
