Comments: Deficiency is now compliant			

<p>General Comments</p> <p>Monitoring inspection completed today. Children were observed indoors, during snack and transitioning to outdoor play. Indoor environments are purposefully planned with a variety of materials and interest centres accessible to children. Children were observed to independently access materials and clean up when they were finished. Educators engaged in play alongside children and were observed to get down at the children's level when speaking to them.</p> <p>Hand washing was observed before children had snack.</p>

General Comments

Outdoors, children played group games and with materials available.

As discussed, QA Monitor will forward a copy of the School-age planning sheet to operator. Documentation book highlights recent activities and play children have engaged in. The planning template may be useful for summer to document ideas, activities and reflections of each week.
