<p>General Comments</p> <ul style="list-style-type: none"> -Visit to the center to complete a monitoring inspection. - Ratio was respected during the visit. - The indoor space provides a large variety of material for children to explore, create and play. The space is safe, and the material is well maintained. -Today was the fourth day the children were attending preschool, educator is still getting to know them and setting up the indoor space with material base on the children's interest and needs. - When I got at the centers, they were gone on a walk to explore their surroundings. Children have access to all kinds of material for them to explore and play. - I observed that the educator used positive child guidance technique, she was respectful to each child rhythm and is attentive to their needs.
