General Comments

The Quality Assurance Monitor is on site for a monitoring inspection.
The child to staff ratio is respected during the visit.

During the inspection, the followings elements were verified:

- If all required documentation was posted in a visible and prominent place in the facility
- The outdoor play area
- The outdoor play area materials and equipment

Parents are well informed of important information regarding the operation of the facility. The Quality Assurance Monitor can confirm that the followings are clearly posted:

- the daily routine.
- instructions regarding evacuation in case of a fire as approved by the fire marshal, deputy fire marshal or fire prevention officer.
- the name of the administrator.
- the name and telephone number of the inspector and the Quality Assurance Monitor;
- whether a child receiving services at the licensed facility has a life-threatening allergy and a description of that allergy
- Inspection reports
- the license, etc.

The outdoor play area is in compliance with the Early Childhood Services Act and regulation.
The outdoor area has various types of surfaces, plenty of shade and is maintained safe and free of hazards.
The outdoor materials and equipment are safe, age appropriate, functional and in sufficient quantity.

The QAM answered some of the operator's questions regarding the storage of EpiPens. The QAM and the operator also discussed the requirements for PL hours for the next renewal year.
