

## Early Learning and Childcare Facility Inspection Report

Type of Inspection:  
Monitoring Inspection

Pursuant to section 21 of the *Early Childhood Services Act*, operators of licensed early learning and childcare facilities must post their most recent inspection report in a clearly visible and prominent place in the facility.

Name of operator Creating Wonders Daycare Inc.	Licence Number 2019572	Inspection Date January 09, 2023
Facility Name Creating Lil' Wonders Daycare	Telephone Number (506) 523-4434	
Address 205 Main Street Rexton NB E4W 2A9		
Name of Early Learning and Childcare Licensing Staff Erin MacLaggan	Position Title Quality Assurance Monitor	

Order for Compliance	Regulation	Date to be corrected	Date corrected
28(1) An operator of a licensed facility shall not change the allocation of space used to provide services or add to or alter any building or facility or any part of them unless the Minister has approved the changes in writing.	28(1)	Jan 09, 2023	
Comments: The QA Monitor discovered that the Operator has converted an old office space into a sleep room for children 24 months and older. Any changes to space allocation are to be communicated to the Minister and approved prior to the changes being made. The QA Monitor sent a message to the fire inspector and informed the Operator to contact the fire inspector to verify that this room is acceptable for this use. If approved, the room may be used for this age group to sleep in, provided that ratios are respected, and a staff member remains in the room at all times.			

<b>General Comments</b>
The QA Monitor observed that a play structure has been added to a preschool room, it is placed on several mats however the Administrator was unable to confirm that the structure was installed in accordance with the manufacturer's instructions. As the structure has a small climbing wall, a slide and two rings to swing from, the Operator must ensure that the onsite administrator and staff have access to the manufacturer's instructions and can verify that the equipment is installed safely and used in accordance with the manufacturer's instructions. This can be confirmed by email to the QA Monitor.
