General Comments
<p>Acorn to Oak is closed for the month of August. The inspection is completed without observing the children however compliances could be verified for the past year.</p> <p>Discussed incident reports with the operators and the difference between non-reportable and reportable incidents. Non-reportable incidents are kept in a binder and reportable incidents will be kept in each child's files.</p> <p>Operators stated that they have not had to use potential illness forms as they have not had illness in the facility. They are aware of reporting communicable disease, posting it at entry of facility and using return after exclusion forms when necessary.</p> <p>A pre-planned program is being completed. Operators are posting children's artwork and projects as well pictures.</p> <p>Operators have a good understanding and are implementing Covid-19 guidelines. Proper screening protocols have been put into place, ear thermometer is being used, logs are being maintained, household information requests are being given out in facility enrollment packages, and cleaning is being completed on a daily basis.</p>
