Comments: Ellis One: Blue carpet accumulating dirt and debris. To be cleaned. Ellis Two: ABC and Road carpet accumulating dirt and debris. To be cleaned.			

General Comments <p>A renewal inspection occurred today.</p> <p>All indoor play environments were set-up in advance of children arriving with invitations and materials to spark children's interests and curiosities. Flowers, Fire Fighter materials, books, stuffed animals etc. Children were observed both in the indoor and outdoor environments. Educators sang songs, read stories, engaged in play at the children's level and blew bubbles.</p> <p>Each classroom showed they valued each child, accommodating children's emerging interests by making children's contributions and thinking visible through displays, documentation, photos and artwork.</p> <p>Each environment provided materials displayed at children's level that can be independently accessed. Open-ended materials were in each environment. Open-ended materials provide multiple choices, solutions and possibilities for exploration and investigation.</p>

General Comments

Transitions were observed to run smoothly. Having the administrative staff available and able to jump in and support transitions from indoors to outdoors ensured that children were not waiting too long.

All staff files and random review of children's files were reviewed.

Handwashing, diaper changing producers, mealtimes and nap time observed.

Recommendations:

1. Review Diaper changing procedures with all staff.
2. Review section 8.1.4 Supervision of the Operator Manual
