General Comments Renewal Inspection: A renewal inspection was conducted during the morning and afternoon for the infants and pre-school children. The children were observed participating in a variety of activities both indoors and outdoors. Indoors, the children were observed during snack, lunch, and nap time, engaging in music and dancing with their educators, playing with dolls, and reading stories. Outdoors, the children were observed playing in the sand with cars and trucks and playing catch. Documentation was current and reflective of the children's past play experiences. Children's artwork was displayed throughout the rooms. Educators shared that some of the children's current interests are bugs, music, painting, and farming. The following records were reviewed: incident logs, fire drill records, daily attendance records, infant and toddler daily sheets, a sample of children's files, all staff files, and professional learning records. All required documentation was appropriately posted on the parent information board. Handwashing practices were also observed during the inspection. The facility is recommended for licensing.
