General Comments
Inspector was properly screened by the operator upon entering the facility as per the Covid-19 recovery phase recommendation. The inspector observed that the toy cleaning list does not included records of the individual that perform the task, including the date and time. The operator was advised to create a cleaning form noting that the toys are disinfected twice a day, including the time, date, and staff initials. The operator was advised to provide a copy of the form to the inspector by September 18, 2020.
The inspector observed positive engagement between the children and the educators throughout the inspection.
