<p>General Comments</p> <p>There was one child present at time of visit. The environment is much more organized than at the time of the previous annual inspection. There is evidence of the children's learning in the form of their artwork and pictures. The operator is working on portfolios for each child. Licensing staff advised Operator to keep a schedule or a journal to pre-plan activities for the children based on their interests. This will be verified with the quality assurance monitor on next visit. The pre planned program must be able to be verified for a year at the time of the inspection.</p> <p>All required documentation is being kept on file and was easily verified by licensing staff. Licensing staff can recommend facility for licensing.</p>
